

# InFocus Services

Focused on Community Support

At InFocus we strive to maximize overall quality of life for our clients, to help them achieve independence at home, school, work and in the community. We can provide a variety of supports to persons with Acquired Brain Injuries. We have contracted with Island Health, lawyers, Public Guardian and Trustee, Insurance Corporation of BC, private trusts as well as individuals.

## Advocacy

We help our clients apply for pensions, disability benefits, acquire ID, find appropriate medical care as well as other conflicts that may require advocacy.

## Housing Support

We assist clients in obtaining affordable, safe, supportive living environments.

## Case Management

Individual programs are developed, implemented and monitored by our qualified community support workers in consultation with care teams.

## Crisis Intervention

We assist clients during volatile times and help build on success and stability within a harm reduction model.

## Community Integration

Our teams work with clients to develop plans to maximize community integration strategies and independence.

## Life Skills Coaching

We provide guidance in life management, support in social and vocational settings, as well as monitor self-harming behaviour.
